

CSP-30ES-013 Mounting Instructions:

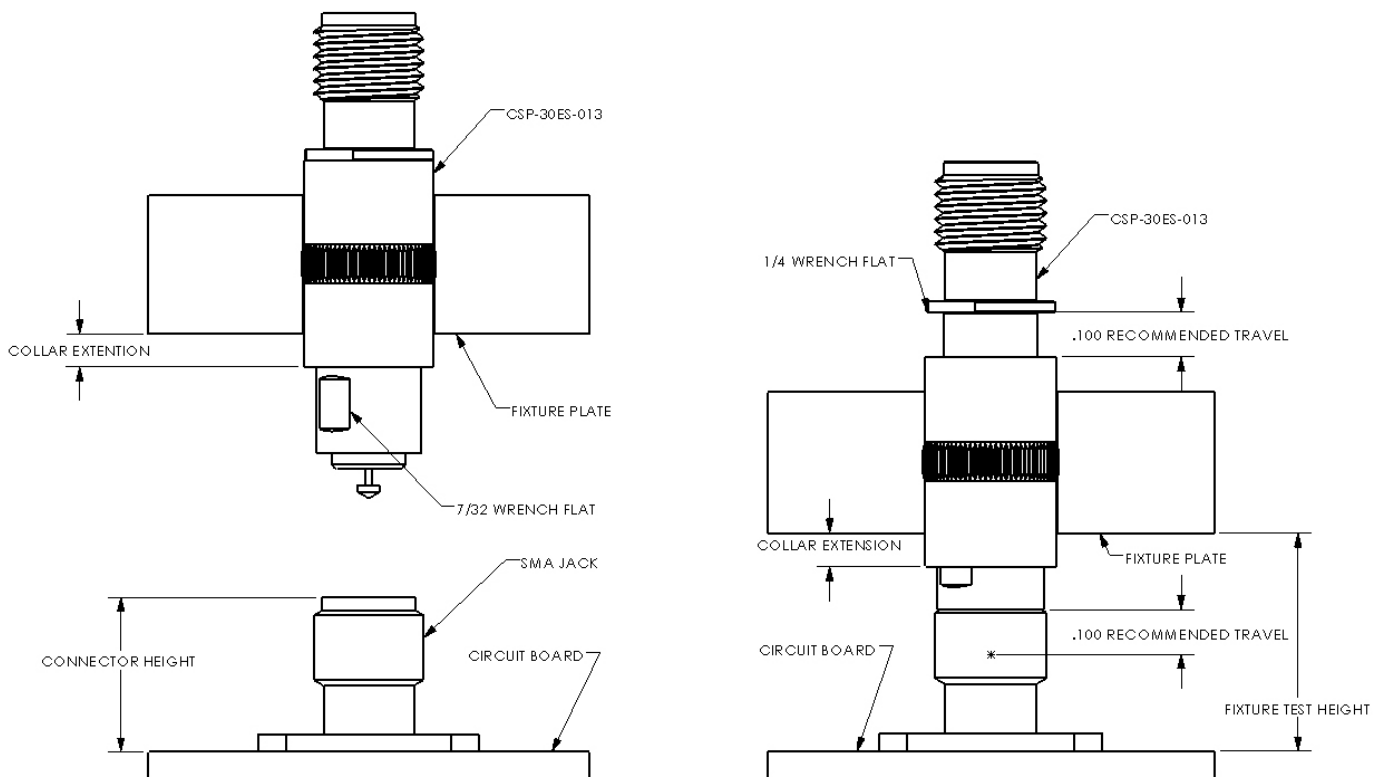

Rev NR

Mounting to G10 Plate:

- 1) The CSP-30ES-013 SMA Connector Probe can be mounted into a G10 sheet fixture plate .250" or larger thickness.
- 2) The recommended mounting hole size for the CSP-30ES-013 is 19/64" (.2969").
- 3) The CSP-30ES-013 probe is press fit into the mounting hole with the collar extension equal to:

$$\text{COLLAR EXTENSION} = \text{FIXTURE TEST HEIGHT} - \text{CONNECTOR HEIGHT} - .062''$$

This will give a nominal coax probe travel of .100". See diagram below:

- 4) The 7/32" or 1/4" wrench flats may be used to connect the SMA interface cable
